PROVIDING OEM-LEVEL DIAGNOSTICS TO  
CERTIFIED NETWORK SHOPS

# HOW DOES IT WORK?

NISSAN NORTH AMERICA WILL PROVIDE A COMPLIMENTARY asTech® DEVICE\* TO EVERY QUALIFYING NISSAN AND INFINITI CERTIFIED COLLISION CENTER

## BENEFITS FOR CURRENT asTech® CUSTOMERS

Current asTech customers that meet minimum volume requirements can request an additional complimentary unit at no added charge.

## MEASUREMENT

Participating Nissan and INFINITI Certified Collision Centers agree to share data and repair order-specific scan information with Nissan North America for scorecard reporting and validation of the Certified Collision Center's level of compliance.

## WHAT'S REQUIRED

Starting October 1, 2019, Nissan and INFINITI Certified Collision Centers will be required to document that they have performed a post-repair scan on all 2008 and newer Nissan and INFINITI vehicles.

Participating Nissan and INFINITI Certified Collision Centers will be able to perform pre- and post-repair scans on every Nissan and INFINITI vehicle using an asTech® device.

## SUPPORT

asTech will offer Nissan and INFINITI Certified Collision Centers support and training on the proper set-up and use of the asTech® device.

## HELP ALL CUSTOMERS

The asTech® device is not just for Nissan and INFINITI vehicles. Shops can utilize asTech® across multiple OEMs, elevating the repair experience for all customers.

**\*To avoid incurring additional fees, participants must maintain Nissan or INFINITI Certification for a minimum of 180 days and must conduct a minimum of 50 scans during the first 120 days after receiving the asTech® device.**

# Why asTech®?

- asTech® connects directly to Nissan and INFINITI's OEM scan tool CONSULT. Our CONSULT tools are always up to date and can identify the vehicle's original build data.
- Shops have access to OEM Trained and/or ASE Certified Technicians that use only genuine Nissan CONSULT tools.
- asTech is recognized as an approved provider of remote OEM diagnostic services by a number of other OEMs.

## Body Repair Shop Benefit:

- ✓ Avoid the need to purchase and maintain Multiple OEM Scan Tools.
- ✓ Eliminate the requirement to have technicians on-site that have the skillset to operate OEM Factory Tools.
- ✓ Receive an invoice per vehicle that can in turn be billed as part of the job.
- ✓ Eliminate risk of damage or theft of the CONSULT tool.
- ✓ Use asTech® across multiple OEMs to meet volume requirement.
